

Intelligent AI-Connected Dash Cam

- **STREAMING WITH DUAL FACING CAMERAS**
- **INSTANT ACCIDENT RETRIEVAL**
- **DISTRACTED DRIVING AI DETECTION**
- **100% INTEGRATION WITH GEOTAB**
- **EASY INSTALLATION**
- **WIRELESS EXPANDABILITY**

ADVANCED AI TECHNOLOGY

Equipped with AI and night vision, the Q9 identifies unsafe driving such as harsh braking, sudden acceleration & lane adherence to protect your fleet and save money!

AUDIO-VISUAL ALERTING

Easily detect distracted drivers, driver fatigue and unsafe driving behaviors, while assisting drivers with audio and visual corrections.

DATA ANALYTICS AND REPORTING

Create custom reports and dashboards for groups, depot's or single vehicles. Real-time GPS tracking includes location history with the ability to focus on specific vehicles.

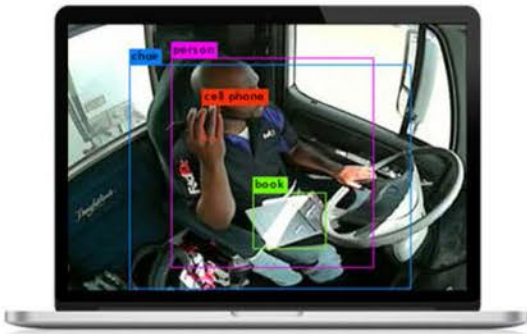

Features

ADVANCED FEATURES

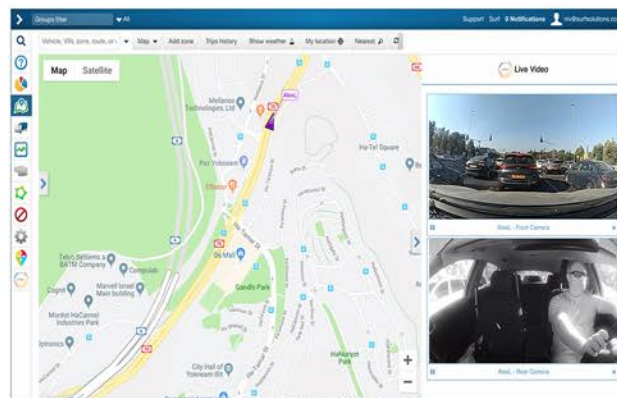

- Our image analytics algorithm detects cell phones and other objects as required for enhanced notifications
- Improved facial recognition is able to recognize driver distraction and drowsiness at any hour of the day
- Real-time access to live video from any device to assist drivers
- Be able to quickly and fully review an incident; collisions, near-misses or unsafe driving events to save time on complex investigations
- Get instant access to live video and video retrievals - each vehicle can have footage stored in the cloud for 30 days

Advanced AI detection

HIGHLIGHTS

<i>FULL HD VIDEO</i>	1080P full HD video with 140° wide angle lens
<i>FUTURE-PROOF</i>	4G LTE connectivity and built-in WiFi
<i>SECURITY</i>	Tamper-resistant memory card and power connection
