

Dual Lens Camera

FM-V42-1MR/720p

FM-V42-2MR/1080p

V42 is an dual lens cameras, which is designed for commercial vehicles and can applied in various industries.

It is a vehicle AHD high definition dual-lens camera, using 5 infrared LED with low power consumption, support wide-angle, anti-fog, vandal-proof and wide voltage.

Features

1. AHD 1.0 megapixel CMOS.
2. New digital exposure function can achieve good image effects between different light and contrast conditions.
3. High- temperature resistance, work stable under high-temperature operation.
4. Anti-vibration, wide voltage 8V-18V, professional-designed for in-vehicle environment.
5. 2ch cameras; 720p starlight illumination, in-cab camera supports night vision, monitor in 125-degree indoor condition, forward view camera supports 110-degree record front view in outdoor.
6. High-definition pickups, effective detection range up to 25 m².
7. 2 pieces 3-meter long extension cables, with aviation connector.
8. Installation method: 3M glue double side sticker directly bonded or screwed.

Technical specification

Model	Hero-C60S0V42-1MR
Imaging device	1/3" CMOS
Signal system	PAL/NTSC
Effective Pixels	1280(H)*720(V)
Frame rate	25/30 Frames
Synchronization system	Internal synchronization

Minimum illumination	0.8LUX/F1.2
Horizontal Resolution	1200TVL (B/W)1300TVL
White balance	Auto
Electronic shutter	1/50 (1/60) - 1/100,000
Exposure mode	Anti-exposure
Filter switching	External infrared light control switching
Video output	1280*720 AHD-BNC
Operating Voltage	DC12V
Infrared distance	0-3m
Operating temperature	-10°C~+50°C
Housing material	Metal aluminum alloy

Packing list:

Camera	1
Instruction Manual	1
Hex-key	1

Product Size

Unit: mm
