

ADVANCED BLIND SPOT SENSOR SYSTEM

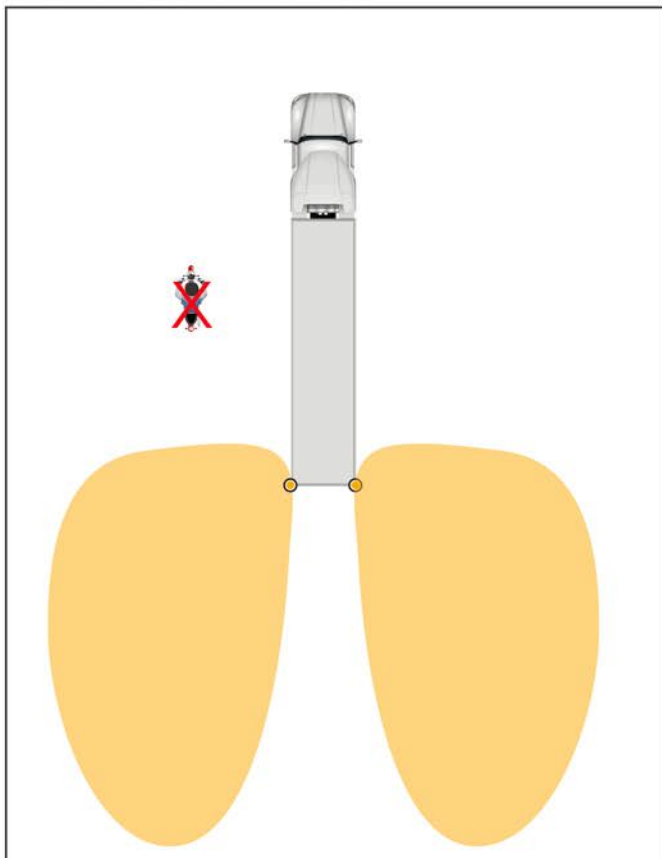

FEATURES

- Microwave Sensor Technology
- Long detection range - up to 82ft
- Easy Sensor Installation - Surface Mounted
- Visual alerts mount in A-Pillar

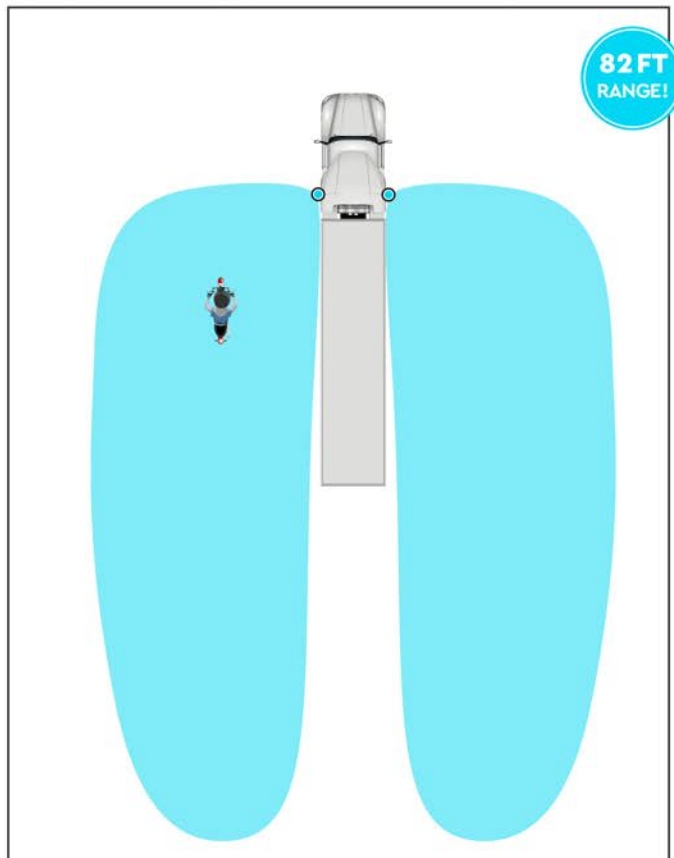

COMPETITION

Sensors mounted in rear corners

THE FLEETMASTER DIFFERENCE

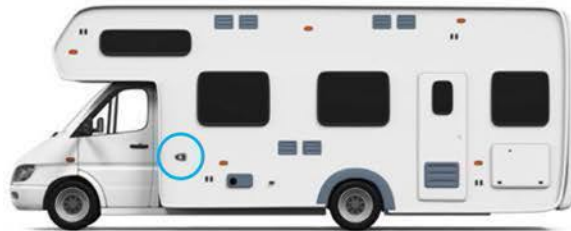

Our sensors are mounted in the front of the vehicle

ADVANCED BLIND SPOT SENSOR SYSTEM

SPECIFICATIONS

Operating Frequency	24.0-24.25GHz
Transmitting Power	15dBm
Detection Angle	40 Degree
Speed Range	0.35mph-137mph
Speed Accuracy	< 0.35mph
Movement Detection	approached or overtaken by vehicle
Detection Range	0-82ft
Operating Voltage	9-32V
Rated Current	<200mA
Working Temperature	-40°C ~ +80°C
Waterproof Radar Sensor	IP67

IN THE BOX

1 x Control Module

1 x Cable Harness

2 x Blind Spot Sensors

2 x Sensor Extension Cables

2 x LED Indicators

2 x LED Extensions Cables

1 x GPS Connector

1 x Speaker

2 x 3M Mounting Tapes
