

HD Camera Connector

OVERVIEW

HD Camera Connector connects up to 4 compatible HD cameras for 360° video visibility of your vehicles. This self-install accessory enables you to connect side, rear, or interior feeds in addition to Samsara AI Dash Cam feeds. Easily retrieve up to 100 hours of high-resolution video on-demand through the Samsara dashboard for incident investigation, impactful coaching, and driver exoneration.

SOFTWARE FEATURES

- On-Demand Video Retrieval: Pulls 1 minute of high-resolution footage and any duration of hyperlapse video
- Still Images: Automatically uploaded every few minutes with the option to request additional stills on-demand
- Parking Mode and Live Streaming: Coach with more context before, during and after trips

SUPPORTED VIDEO CONNECTORS

GX12 Connector

HIGHLIGHTS

- Connect up to 4 compatible HD cameras for side, rear, or interior visibility
- Full integration into Samsara's Connected Operations Cloud, including safety events, coaching workflows, Parking Mode and Live Streaming
- Retrieve high-resolution footage of up to 100 hours
- Quick and simple self-installation
